

Joey Ramp

Joey Ramp has been an advocate for disability services with a focus on individuals with service dogs, post-traumatic stress disorder (PTSD) and traumatic brain injuries (TBI) since 2012. She is a senior in the College of Liberal Arts and Sciences pursuing an Independent Plan of Study in Biocognitive Neuroscience which will be a collaboration of neuroscience disciplines between Behavioral Neuroscience, Cognitive Neuroscience and Molecular and Cellular Biology. Joey joined the Rhodes' Lab in the summer of 2017 after receiving a grant to conduct a 2-year study on the impact a service dog has on laboratory rodent physiology and behavior.
